

Clara the Customer Programme Manager

Who we are:

Inflowmatix (www.inflowmatix.com) are developing pioneering technology to investigate pressure transients and flow instabilities in water supply networks. We are currently engaging with various UK and European customers and need to strengthen our commercial activity across the globe to take us to the next stage of growth.

Who we are looking for:

We are looking for a highly talented Customer Programme Manager with extensive experience in the water industry. This full-time position could be office-based (in Southampton, UK) or more likely remote working in the UK given the nature of travel to meet with customers both in the UK and globally.

The role:

You will be a key player in the Inflowmatix Leadership team responsible for managing multiple customer engagements on a day to day basis. These interactions will form the basis of the customer journey from first contact through early field trials and then on to large scale deployments.

The application process:

If you're interested in this exciting new opportunity please email us at careers@inflowmatix.com and tell us why you believe this is the role for you. The first stage of the recruitment process is likely to be a phone conversation with the COO (Robin Bell) and if this goes well we'll ask you visit Southampton and meet with the Inflowmatix team.
